

**Crypto**

# Introduction

## Theme Documentation

Thank you for purchasing this template. We've put in lots of love in developing this HTML template and are excited that you've chosen this template. We hope you find it easy to use our template. This documentation guides you through the main features of the template and guides you how to use and customize the template.

### About the Template

Crypto is a Cryptocurrency Trading Dashboard. This template helps you build your cryptocurrency trading platform. This template build with rich features and a well-coded component. We use SASS and SMACSS to manage our CSS.

### Need Help ?

Please do not hesitate to get in touch with us if you need help. We also welcome your feedback and suggestions. Please contact us through our [Help center](#) and we are happy to help.

We usually respond to all queries within 24 hours during weekdays. We are mostly not available during weekends and public holidays. We live across different timezone and have different people for answering different queries. So if we find us online responding to other comments and not yours please be patient with us.

Thank you,

**The Trendyui Team**

# Light Version

By default, this template is light version.

## Add header border

add this class in header tag to add a border

```
.light-bb
```

```
11 </head>
12
13 <body>
14   <header class="light-bb">
15     <nav class="navbar navbar-expand-lg">
16       <a class="navbar-brand" href="exchange-light.html"></a>
17       <button class="navbar-toggler" type="button" data-toggle="collapse" data-target="#headerMenu"
18         aria-controls="headerMenu" aria-expanded="false" aria-label="Toggle navigation">
19         <i class="icon ion-md-menu"></i>
20       </button>
21
22       <div class="collapse navbar-collapse" id="headerMenu">
23         <ul class="navbar-nav mr-auto">
24           <li class="nav-item">
25             <a class="nav-link" href="exchange-light.html">Exchange</a>
26           </li>
27           <li class="nav-item active">
28             <a class="nav-link" href="markets-light.html">Markets</a>
29           </li>
30           <li class="nav-item">
```

header border add image

# Dark Version

## Add header border

add this class in header tag to add a border

```
.dark-bb
```

```
</head>
<body id="dark">
  <header class="dark-bb">
    <nav class="navbar navbar-expand-lg">
      <a class="navbar-brand" href="exchange-dark.html"></a>
      <button class="navbar-toggler" type="button" data-toggle="collapse" data-target="#headerMenu"
        aria-controls="headerMenu" aria-expanded="false" aria-label="Toggle navigation">
        <i class="icon ion-md-menu"></i>
      </button>

      <div class="collapse navbar-collapse" id="headerMenu">
        <ul class="navbar-nav mr-auto">
          <li class="nav-item">
            <a class="nav-link" href="exchange-dark.html">Exchange</a>
          </li>
          <li class="nav-item active">
            <a class="nav-link" href="markets-dark.html">Markets</a>
          </li>
          <li class="nav-item">
            <a class="nav-link" href="wallet-dark.html">Wallet</a>
          </li>
          <li class="nav-item dropdown">
```

Header dark border

## Add dark layout

add this id in body tag to add dark layout

```
#dark
```

```
<title>Cryptorolla</title>
<link rel="icon" href="assets/img/favicon.png" type="image/x-icon">
<link rel="stylesheet" href="assets/css/style.css">
</head>
<body id="dark">
  <header class="dark-bb">
    <nav class="navbar navbar-expand-lg">
      <a class="navbar-brand" href="exchange-dark.html"></a>
      <button class="navbar-toggler" type="button" data-toggle="collapse" data-target="#headerMenu"
        aria-controls="headerMenu" aria-expanded="false" aria-label="Toggle navigation">
        <i class="icon ion-md-menu"></i>
      </button>

      <div class="collapse navbar-collapse" id="headerMenu">
        <ul class="navbar-nav mr-auto">
          <li class="nav-item">
            <a class="nav-link" href="exchange-dark.html">Exchange</a>
          </li>
        </ul>
      </div>
    </nav>
  </header>
</body>
```

Dark layout
